YARD CARD RENTAL REMINDERS:

1. Particular sets or flair items are NOT guaranteed as it depends on the number of setups already booked and inventory. We strive to make every single set up as personalized as possible from what you tell us about the person or event.
2. Solar lights are used to light the yard cards. They are NOT guaranteed for any certain amount of time as they are solar which depends on how sunny it was earlier that day to charge them.
3. Winter Months - Setups may be scaled back a tad as the ground is frozen and wooden bases are having to be utilized for setups. No worries, your setup will still be Amazing!!
4. Spring/Summer/Fall - you MUST water your lawn to ensure a smooth install. Dried out ground is super hard for a successful install. If you cannot push a 6" screwdriver into the ground smoothly, you cannot expect us to put 50+ yard stakes into it. PLEASE WATER YOUR LAWN and ensure we know what area you watered so we know where to setup.
5. Please do not move yard cards or attach anything to them. Call us if you have questions. PLEASE notify the receiver if you are having these setup for someone else!
6. We are a small business, local to Adrian and truly appreciate YOU and your referral of our small business! THANK YOU!
